(NASA Award NNX08BA63A)

Title: Workshop with Girls Demonstrating
Best Practices and Products

When: Thursday, February 24 10:00-11:30AM

Where: Salvation Army Main Auditorium
221 E. 52nd Street

“Not Your Everyday Classes”

- 8th grade girls build a boat in Math class
- 2nd graders create water filters for life on the International Space Station
- A hydroponic garden grows in NYC

See how students learn in authentic contexts from trained, talented STEM educators affiliated with NASA Endeavor. Join NASA, Teachers College, and NASA Endeavor Fellows from the region in a workshop featuring girls who will become tomorrow’s scientists, engineers and mathematicians.
